PRIVACY INFORMATION

The information you have provided on this form is required so that your application can be processed under the Resource Management Act 1991 and may also be used in statistics collected and provided to the Ministry for the Environment and Queenstown Lakes District Council. The information will be stored on a public register and may be made available to the public on request or on the company's or the Council's websites.

FEEES INFORMATION

FEE REQUIRED: \$924

Section 36 of the Resource Management Act 1991 deals with administrative charges and allows a local authority to levy charges that relate to, but are not limited to, carrying out its functions in relation to receiving, processing and granting of resource consents (including certificates of compliance and existing use certificates).

An initial fee for processing this application will be charged at the time of lodgement in accordance with QLDC's fee schedule. This initial fee must accompany your application for processing to commence. If the initial fee is insufficient to cover the actual and reasonable costs of work undertaken on the application you will be required to pay any additional amount and will be invoiced monthly as work on the application continues. Please note that if the Applicant has outstanding fees owing to Council in respect of other applications, Council may choose to apply the initial fee to any outstanding balances in which case the initial fee for processing this application may be deemed not to have been paid.

Invoiced sums are payable by the 20th of the month after the work was undertaken. If unpaid, the processing of an application, provision of a service, or performance of a function will be suspended until the sum is paid. You may also be required to make an additional payment, or bring the account up to date, prior to milestones such as notification, setting a hearing date or releasing the decision. In particular, all charges related to processing of a resource consent application are payable prior to issuing of the decision. Payment is due on the 20th of the month or prior to the issue date – whichever is earlier.

If your application is notified or requires a hearing you will be requested to pay a notification deposit and/or a hearing deposit. An applicant may not offset any invoiced processing charges against such payments.

Section 357B of the Resource Management Act provides a right of objection in respect of additional charges. An objection must be in writing and must be lodged within 15 working days of notification of the decision.

LIABILITY FOR PAYMENT – Please note that by signing and lodging this application form you are acknowledging that the details in the invoicing section are responsible for payment of invoices and in addition will be liable to pay all costs and expenses of debt recovery and/or legal costs incurred by QLDC related to the enforcement of any debt.

MONITORING FEES – Please also note that the fee paid at lodgement includes an initial monitoring fee of \$273 for land use resource consent applications and designation related applications, as once Resource Consent is approved you will be required to meet the costs of monitoring any conditions applying to the consent, pursuant to Section 35 of the Resource Management Act 1991.

DEVELOPMENT CONTRIBUTIONS – Your development, if granted, may also incur development contributions under the Local Government Act 2002. You will be liable for payment of any such contributions.

PAYMENT // A Fixed Fee is payable upon lodging this application.

Please ensure to **reference any banking payments correctly**. Incorrectly referenced payments may cause delays to the processing of your application whilst payment is identified.

Please reference your payments as follows:

Section 88 and the 4th Schedule of the RMA set out the information required for making an application and an assessment of effects on the environment. Depending on the complexity of the application, the Council may require these are strictly adhered to. Generally, an assessment using the following criteria will be sufficient.

Your application should include an assessment of the proposal against the matters of discretion and policies in Chapter 32: Protected Trees of the Proposed District Plan.

The Matters of Discretion for removal, pruning or works to Arrowtown Character Trees are:

SIGNIFICANT TRIMMING, REMOVAL, DESTRUCTION OR DAMAGE:

- The significance of the character, cultural and amenity values of the tree(s) and the degree to which the proposed trimming, works or removal would impact on those values.

- The efficient use of land and resources, including reasonable sunlight into dwellings and building maintenance.

- Whether the proposed works would maintain the values for which the tree was protected.

- The merits of any substitute or compensating tree planting or landscaping.

- Whether the removal of the tree or group of trees would create a cumulative adverse effect due to previous tree removals, whether on the same property or not.

WORKS WITHIN THE ROOT PROTECTION ZONE:

- Potential effects on the health or stability of the tree or hedgerow

- Whether best practice methods will be used

- Whether any alternatives are available

POLICIES RELATING TO ARROWTOWN CHARACTER TREES IN PART 32.2.3 OF THE PROPOSED DISTRICT PLAN

- Protect or enhance Arrowtown’s unique character and amenity by recognising the contribution trees and groups of trees make to Arrowtown’s landscape, cultural identity and historic heritage values.
- Acknowledge the important role trees and groups of trees have in contributing to the character and historic heritage of Arrowtown, despite that on an individual basis a tree or group of trees may not be significant in stature.
- Have regard to the reasonable and efficient use of land anticipated in the Arrowtown Residential Historic Management zone, while ensuring the removal or modification of trees or groups of trees does not lead to the cumulative loss of Arrowtown’s heritage character and amenity values.

The removal, pruning and works to a protected tree listed in Schedule 32.8 are not limited to the matters set out above, however they can be used for assistance with your AEE. Proposals to remove a Protected Tree could require a more detailed application.

While it is not essential that your documents are named the following, it would be helpful if you could title your documents for us. You may have documents that do not fit these names; therefore below is a guide of some of the documents we receive for resource consents. Please use a generic name indicating the type of document.
